COMTA Unveils New Logo

The Commission on Massage Therapy Accreditation (COMTA) would like to introduce its new logo design symbolizing the **BRIDGE** between students, schools, and national professional standards.

As the only specialized accrediting agency for massage and esthetics, COMTA values its commitment to high educational standards to move the professions forward. The new logo was designed to capture the **professional regulatory community and schools working in partnership** to help future practitioners.

In addition to a new logo, the Commission has also developed “badges” which schools/programs can use to proudly promote their status.

COMTA staff will make the logo and badges available to all currently accredited schools/programs to be used in accordance with COMTA Standards. Schools/programs will have until **July 1, 2017** to replace the COMTA logo in all publications and promotions.

For questions, please contact the COMTA office at info@comta.org or 202-888-6790.
